EDUCATION

Government College of Engineering Kalahandi, Bhawanipatna
B.Tech in Computer Science and Engineering — *2019 – 2023*

Binayak Residential Higher Secondary School, Bhawanipatna
Intermediate — *2017 – 2019*

Panchayat High School, Haramal
Matriculation — *2016 – 2017*

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL
Frontend: HTML, CSS, React.js, Tailwind CSS, Bootstrap, REST APIs
Backend& Databases: Firebase, MySQL
Tools & Platform: Postman, Linux, Git, GitHub, Visual Studio Code, Eclipse IDE
Soft Skills: Communication, Team Collaboration & Management, Problem-Solving
Others: Canva, Microsoft Office

PROJECTS

Notes Management System | **Link** | *ReactJs, Redux, JavaScript, Tailwind CSS*
- Developed a Note-Taking app using ReactJS and Tailwind CSS, enabling users to add, update, delete, view, and share notes.
- Integrated Redux for efficient state management to handle notes and user interactions.
- Used localStorage for data persistence, ensuring notes remain intact across sessions and reloads.
- Implemented dynamic date display to show note creation or update times, improving user context.
- Added a copy button for easy copying of note content, along with a share button for sharing notes via external platforms.

Online Exam Portal | **Github** | *Java,ReactJs, MySQL, SpringBoot*
- Designed a web-based Online Exam Portal using Java and Spring Boot, enabling secure user authentication and seamless exam management for both administrators and examinees.
- Implemented key features such as admin-controlled exam creation, real-time monitoring, automatic result generation, and a categorized question bank for efficient retrieval.
- Secured authentication and authorization using Spring Security, ensuring data integrity.
- Managed database interactions with Hibernate MySQL and built the UI using React.js, Thymeleaf, and HTML/CSS/JavaScript.

EXPERIENCE

Web Developer — Mar 2025 – Present
Gollamudi Technology and Software — *Hyderabad*
- Built and optimized the frontend using React.js Tailwind CSS, ensuring a responsive and user-friendly UI.
- Integrated Firebase Authentication Firestore for secure login, real-time data storage, and scalability.
- Implemented authentication features like email/password login, social authentication, and session management.
- Improved performance and ensured cross-browser compatibility for a smooth user experience.
- Used Git/GitHub for version control and efficient code management.

Frontend Developer Intern — Sep 2023 – Dec 2023
Bharat Intern — *Remote*
- Work with front-end technologies such as HTML, CSS, and JavaScript to implement interactive and dynamic functionalities
- Assess and troubleshoot bugs of the working projects.
- Showcased proficiency in creating responsive websites, emphasizing **user experience** and **optimizing** performance.
- The projects have been deployed via GitHub and the fully responsive website is now hosted on GitHub Pages. We have ensured to fix any errors encountered during the deployment process.
